

Instructions

How to draw a cylinder

Step-by-Step

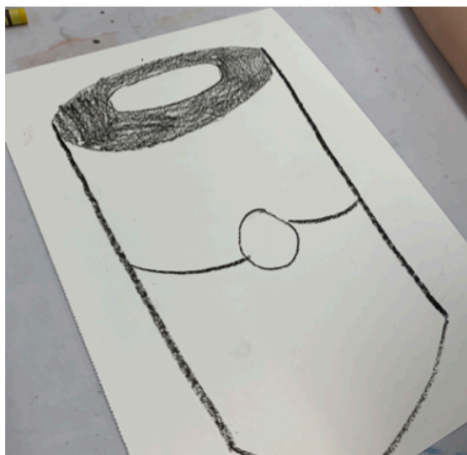

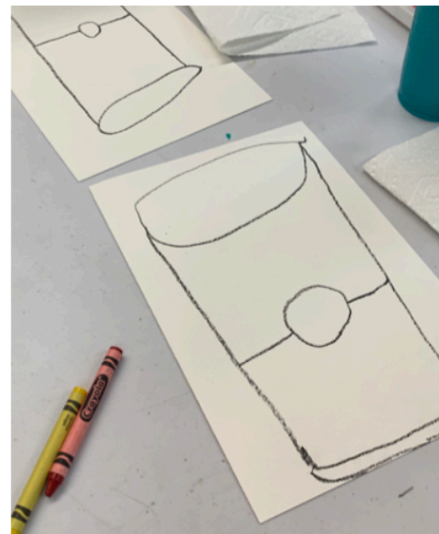

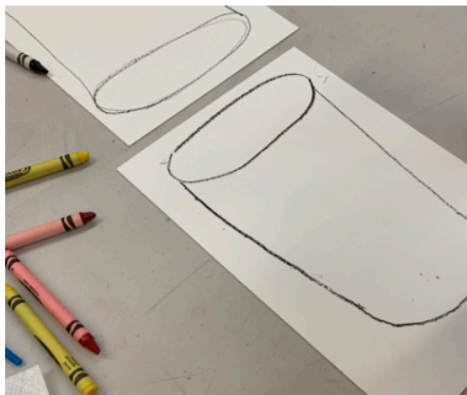

Draw a Cylinder

1. Draw an oval at the top of your page (this will be the top of your soup can).
2. Draw a straight (vertical) line on each side of the oval for the sides of the can.
3. Connect the two vertical lines with a little curved line at the bottom.

You now have a cylinder.

Turn this cylinder shape into a Warhol-inspired soup can using the following steps.

1. Draw a small circle in the middle of the can.
2. Add a curved line that goes through the middle of this small circle (much like the bottom line in step 3 above) but skip over the circle.
3. Add a smaller oval inside the first oval that you drew (the top of the can).
4. [Optional] Write Campbell's Tomato Soup (or any flavor you want) on your can.
